WORK EXPERIENCE

6 Livo Technologies Pvt. Ltd. (ViTWO) | Software Developer

Oct 2024 - May 2026 | Kolkata

- Worked across multiple ViTWO ERP modules including Purchase, Vendor Management, Material Management, Sales & Distribution, Warehouse, Operations, Quality, Finance & Accounting, Analytics, and KPI dashboards.
- Developed purchase-to-payment workflows: Vendor Onboarding, PR, RFQ, Purchase Order, GRN, Invoice Posting, Payment, approvals, status tracking, and audit-trail processing.
- Implemented KPI dashboards, analytics screens, filters, reports, and SQL logic for management visibility, operational tracking, and business performance monitoring.
- Built backend modules, validations, REST/API-ready logic, reports, AJAX-based screens, and database workflows using PHP, CodeIgniter, MySQL, JavaScript, jQuery, HTML, and CSS.
- Improved reliability through debugging, production issue support, query optimization, performance improvements, and module enhancements across ERP workflows.

Rank U Up Technologies | PHP Developer

Dec 2023 - Aug 2024 | Kolkata

- Worked on School ERP modules including Fee Management, Multi-Branch Management, QR Attendance, Payment Gateway Integration, Online Admission, Collections, Library Management, and multiple reports.
- Developed fee collection workflows, online admission forms, receipts, branch-wise data management, student/admin panels, reporting filters, and MIS reports.
- Integrated payment gateway flow for school fee collection and supported transaction, collection, and report-related backend logic.
- Built and maintained modules using PHP, CodeIgniter, MySQL, HTML, CSS, JavaScript, AJAX, jQuery, and admin panel workflows.

Kamprik Software Development | Junior Software Developer

May 2023 - Nov 2023 | Kolkata

- Worked on POS billing software with admin panel functionality using PHP, CodeIgniter, MySQL, JavaScript, AJAX, HTML, and CSS.
- Developed billing, product/item management, sales entry, customer features, invoice generation, reports, and admin-side CRUD modules.
- Handled troubleshooting, debugging, SQL queries, form validation, UI fixes, and enhancements based on client requirements.

Sun Shine IT Solution | CodeIgniter Developer

Dec 2022 - May 2023 | Indore

- Worked on Hotel Management Software using PHP, CodeIgniter, MySQL, HTML, CSS, JavaScript, and AJAX, including room management, booking/check-in, billing, and reports.
- Contributed to Laundry Management Software using Laravel and React, including order/service workflow, customer handling, status updates, and billing-related features.

SELECTED PROJECT EXPERIENCE
